The Sexual Assault Prevention and Awareness Center (SAPAC) supplies reports to inform the University community about incidents of sexual assault, domestic violence and stalking that are reported to SAPAC. SAPAC is a resource for survivors, their families and friends, U-M personnel (faculty, staff and U-M Police officers), and non-U-M personnel (e.g., high school counselors). This data reflects, for the two most recent months, the number of incidents reported to SAPAC, and includes reporting by faculty, staff, non-U-M personnel, and the public. This data also reflects the number of instances of incidents that occur to who do not reflect the number of cases that occurred in a specific time frame. They also do not reflect the number of cases that may have been reported to police.
